PROFESSIONAL EXPERIENCE

Growthzone, Inc. - Remote

2023 - present

UI/UX Designer - Lead

My responsibilities include conducting user and market research, designing and presenting digital prototypes and managing a large library of components and features for a variety of software platforms.

- Gathering and evaluating user requirements in collaboration with product owners and software developers.
- Illustrating design ideas using mockups, storyboards, whiteboards, wireframes, process flows and high fidelity design screens.
- Collaborating with various stakeholders including Engineering, Account Managers, Customer Support, Marketing and Sales.
- Creating new and improved features and components to better adapt mobile Android, iOS and other devices to the modern digital landscape.
- Implemented Atomic design system that produced a reusable components library and reduced design time by 20%.
- Maintaining a large repository of custom design components with over 3000+ resources.

MemberSuite, Inc. - Dunwoody, GA

2018 - 2023

Senior UX Designer - Lead

My responsibilities include gathering user requirements, designing and presenting digital prototypes and building UI component libraries for both Association and Event Management product lines.

- Gathering and evaluating user requirements in collaboration with product managers and engineers.
